SYSTEM MANAGER(S): DDTC Chief Information Officer; 2401 E Street, NW, Washington DC 20037; (202) 663 2023; DDTC-CIO@state.gov.

AUTHORITY FOR

MAINTENANCE OF THE

SYSTEM: 22 U.S.C. 2651a

(Organization of Department of State);

5 U.S.C. 301 (Departmental

Regulations); 22 U.S.C. 2776, 22

U.S.C. 2778, 22 U.S.C. 2779, 22 U.S.C.

2780, and 22 U.S.C. 2751 et seq. (Arms

Export Control Act); Executive Order 13637; International Traffic in Arms Regulations (ITAR), 22 C.F.R. Parts 120-130.

PURPOSE(S) OF THE SYSTEM:

This system enables DDTC to support industry customers as DDTC performs its mission to implement relevant provisions of the Arms Export Control Act (AECA) and the International Traffic in Arms Regulations (ITAR) and control the export and temporary import of defense articles and defense services covered by the United States Munitions List (USML).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Exporters of defense articles and defense services with or without Department of State authorization; applicants for export licenses; registered exporters; brokers for sales of defense articles or defense services who completed registration statements or

submitted requests for approval of a brokering activity; and debarred parties.

The Privacy Act defines an individual at 5

U.S.C. 552a(a)(2) as a United States citizen or lawful permanent resident.

CATEGORIES OF RECORDS IN THE

SYSTEM: Correspondence, registration statements when a principal executive officer or owner is the same as the applicant, and payment for registration fees sent to the Department of State when an individual or business registers as a manufacturer, exporter and/or broker of defense articles or defense services; information on political contributions, gifts, commissions and fees relating to certain sales of defense articles and defense services; license applicants, secondary entity contacts, third-party points of contact, and other relevant entities, may be asked to provide information such as: name, address, nationality/citizenship status,

passport/visa/social security number, operator/certificate license, contract and licensing eligibility, contact information (e.g., telephone number, email address), information related to current or past law enforcement charges and convictions, place of birth, financial account numbers, and date of birth; copies of letters to individuals and businesses from the Department of State pertaining to their registration, including notices of suspension and debarment; proposed charging letters and orders and consent agreements pertaining to the Department of State's administrative cases; Federal Register Notices of statutory debarment; correspondence, memoranda, federal court documents, telegrams, other government agency reports, and email messages between the Department of State and other federal agencies regarding law enforcement and intelligence information about defense trade activities pertaining to

the subject of the record.

RECORD SOURCE CATEGORIES:

These records contain information that is primarily obtained from the individual, from the organization the individual represents, federal court documents, and intelligence and law enforcement agencies.

ROUTINE USES OF RECORDS

MAINTAINED IN THE

SYSTEM, INCLUDING

CATEGORIES OF USERS AND

PURPOSES OF SUCH USES:

Munitions Control Records may be disclosed to:

(a.) Appropriate agencies, entities,
and persons when (1) the
Department of State suspects or
has confirmed that there has been
a breach of the system of records;
(2) the Department of State has
determined that as a result of the
suspected or confirmed breach
there is a risk of harm to

individuals, the Department of
State (including its information
systems, programs, and
operations), the Federal
Government, or national security;
and (3) the disclosure made to
such agencies, entities, and
persons is reasonably necessary
to assist in connection with the
Department of State efforts to
respond to the suspected or
confirmed breach or to prevent,
minimize, or remedy such harm.

(b.) Another Federal agency or

Federal entity, when the

Department of State determines

that information from this system

of records is reasonably

necessary to assist the recipient

agency or entity in (1)

responding to a suspected or

confirmed breach or (2)

preventing, minimizing, or

remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, programs, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.

- (c.) The Department of Homeland
 Security, the Department of
 Justice (DOJ), the Department of
 Commerce, and other federal
 entities, including intelligence
 and law enforcement agencies to
 assist in their investigations of
 violations of the AECA or in the
 context of multilateral or bilateral
 export regimes.
- (d.) A court, adjudicative body, oradministrative body before whichthe Department is authorized toappear when (i) the Department;(ii) any employee of the

Department in his or her official capacity; (iii) any employee of the Department in his or her individual capacity where the U.S. Department of Justice or the Department has agreed to represent the employee; or (iv) the Government of the United States, when the Department determines that litigation is likely to affect the Department, is a party to litigation or has an interest in such litigation, and the use of such records by the Department is deemed to be relevant and necessary to the litigation or administrative proceeding.

(e.) Foreign governments for

purposes relating to law

enforcement or regulatory

matters or in the context of

multilateral or bilateral export

- regimes, in accordance with 22 C.F.R. § 126.10(d)(1).
- (f.) Congress to comply with
 statutory and regulatory reporting
 requirements in the AECA or
 ITAR related to certain defense
 trade transactions.
- (g.) Other federal agencies in order
 to provide independent
 monitoring of a system of
 security policy enforcement,
 malicious activity detection, and
 security incident response.
- (h.) The public, as necessary, to

 comply with statutory or

 regulatory requirements or to

 enable exporters to comply with

 such requirements, as follows:
 - The periodic publication in the *Federal Register* of names, dates of conviction, and months and years of

birth of those on the

Debarred Parties List

pursuant to the authorities

granted in 22 U.S.C.

2778(g), as implemented in

22 C.F.R. § 127.7.

ii. The periodic publication of charging letters, debarment orders, and orders imposing civil penalties and probationary periods in the Public Reading Room of the Department of State, as required by 22 C.F.R.

§ 128.17, and on the Directorate of Defense Trade Controls website.

iii. The periodic publication of registrant name and address changes on the Directorate of Defense Trade Controls website to assist registrants and applicants in keeping their records current.

The Department of State periodically publishes in the *Federal Register* its Prefatory Statement of Routine Uses.

These standard routine uses apply to Munitions Control Records SORN, State-42.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Records are stored both in hard copy and on electronic media. A description of standard Department of State policies concerning storage of electronic records is found at https://fam.state.gov/FAM/05FAM/05FAM/05FAM0440.html. All hard copies of records that contain personal information are maintained in secured file cabinets in restricted areas, access to which is limited to authorized personnel.

POLICIES AND PRACTICES

FOR RETRIEVAL OF

RECORDS: Individual name, company name, DDTC Registration Code, DDTC Case Number.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

These records will be maintained in

accordance with the Department of State Records Schedule, Chapter 24 Arms Control and International Security Records, Office of Defense Trade Controls (A-24-048-01a(1)), as approved by the National Archives and Records Administration (NARA) and outlined at https://foia.state.gov/Learn/Records Disposition.aspx. More specific information may be obtained by writing to the following address: U.S. Department of State; Director, Office of Information Programs and Services; A/GIS/IPS; 2201 C Street, N. W., Room B-226; Washington, DC 20520.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS: All Department of State network users are given cyber security awareness training which covers the procedures for handling Sensitive but Unclassified (SBU) information, including personally identifiable information (PII). Annual refresher training is mandatory. In addition, all Department of State OpenNet network users are required to take the Foreign Service Institute distance learning course instructing employees on privacy and security requirements, including the rules of behavior for handling PII and the potential consequences if it is handled improperly. Before a user is granted access to Munitions Control Records, they must first be granted access to the Department of

State computer network.

Department of State employees and contractors may remotely access this system of records using non-Department of State owned information technology. Such access is subject to approval by the Department of State's mobile and remote access program and is limited to information maintained in unclassified information systems. Remote access to the Department of State's information system is configured in compliance with OMB Circular A-130 multifactor authentication requirements and includes a time-out function.

All Department of State employees and contractors with authorized access to records maintained in this system of records have undergone a thorough background security investigation. Access to the Department of State, its annexes and posts abroad is controlled by security guards and admission is limited to those individuals possessing a valid identification

card or individuals under proper escort.

Access to computerized files is passwordprotected and under the direct supervision
of the system manager. The system
manager has the capability of printing audit
trails of access from the computer media,
thereby permitting regular and ad hoc
monitoring of computer usage. When it is
determined that a user no longer needs
access, the user account is disabled.

The safeguards in the following paragraphs apply only to records that are maintained in government-certified cloud systems. All cloud systems that provide IT services and process Department of State information must be specifically authorized by the Department of State Authorizing Official and Senior Agency Official for Privacy.

Information that conforms with

Department of State-specific definitions for

Federal Information Security

Modernization Act (FISMA) low,

moderate, or high categorization are permissible for cloud usage and must specifically be authorized by the Department of State's Cloud Program Management Office and the Department of State Authorizing Official. Specific security measures and safeguards will depend on the FISMA categorization of the information in a given cloud system. In accordance with Department of State policy, systems that process more sensitive information will require more stringent controls and review by Department of State cybersecurity experts prior to approval. Prior to operation, all Cloud systems must comply with applicable security measures that are outlined in FISMA, FedRAMP, OMB regulations, National Institute of Standards and Technology's (NIST) Special Publications (SP) and Federal Information Processing Standards (FIPS) and Department of State policies and standards.

All data stored in cloud environments categorized above a low FISMA impact risk level must be encrypted at rest and in-transit using a federally approved encryption mechanism. The encryption keys shall be generated, maintained, and controlled in a Department of State data center by the Department of State key management authority. Deviations from these encryption requirements must be approved in writing by the Department of State Authorizing Official. High FISMA impact risk level systems will additionally be subject to continual auditing and monitoring, multifactor authentication mechanism utilizing Public Key Infrastructure (PKI) and NIST 800 53 controls concerning virtualization, servers, storage and networking, as well as stringent measures to sanitize data from the cloud service once the contract is terminated.
